

LIGHTSTREAM PRISMA CLOUD HEALTH CHECK

AN EXAMINATION OF YOUR PRISMA CLOUD ENVIRONMENT TO ENSURE MAXIMUM PERFORMANCE AND ROI

Managing your Prisma Cloud environment can be a challenge, especially when faced with issues such as limited resources, complex environments and architectural changes. Lightstream's Prisma Cloud Health Check is a high-level technical review that identifies misconfigurations or vulnerabilities within your Prisma Cloud environment which may compromise data confidentiality, integrity or availability of information.

Lightstream's technical experts also identify opportunities to increase the ROI of your Prisma Cloud purchase by providing recommendations to better integrate and leverage your technology investment. Even if your Prisma Cloud environment was installed years ago and seems to be working well today, a health check helps to make sure you are not at risk of potential security threats, that issues are identified before problems occur and that infrastructure documentation is current.

Connect, Protect and Optimize

No matter where you do business, our services platform and team of highly trained cloud, security and networking experts will help you to effectively balance risk and business outcomes. Our Rapid Risk Profile is the first step in helping you better understand and meet your key business objectives.

Connect Assets

Protect What Matters

Improve and Optimize

What is in Scope

- Identity & Access Management
- Logging
- Networking
- Storage
- Monitoring

What We Provide

- Written Report on Key Cloud-Risk Indicators
- CIS CSC based Compliance Summary Report
- Recommendations on security best practices for frameworks like CSA, CIS, NIST, ISO, and Mitre ATT&CK
- Recommendations on regulatory compliance for frameworks like SOC 2, PCI-DSS, HIPAA, HITRUST, CMMC, and GDPR

Why Choose Us?

- Expertise in Multi-Cloud environments
- Extensive expertise in CNAP (Cloud Native Application Platform)
- Multiple Palo Alto Partner of the Year Awards
- Prisma Cloud Launch Partner
- Palo Alto Certified Pro Services Partner
- Multiple CYBERFORCE Team Members
- Palo Alto Cloud Specialized Partner
- Certified Expertise for AWS / Azure
- Microsoft Gold Cloud / Security Partner
- AWS Security Competency

Get Started Today

The Lightstream Prisma Cloud Health Check data gathering efforts begin with a single one-hour remote meeting with our security team. All access to your environment is performed by you. Lightstream has no access to your data during or after the analysis session.

To get started, [contact us](#).

Forrester Consulting found that businesses using Prisma Cloud benefit from a 90% reduction in the time it takes to conduct compliance reporting and a 64% lower total audit time.

Let us tell you more about the amazing things we do.
