

Food Restaurant Chain

Lightstream helped the food chain fast-track digitalization and save millions in AWS and Azure to simplify billing, improve bandwidth speed, and reduce costs.

Business Challenge

- Day-to-day administration of AWS and Azure
- Excessive cloud usage costs
- Lack of expertise around security
- Compliance visibility and remediation

Solution

- Lightstream proactive monitoring and carrier management
- Connectivity solutions
- Multi-carrier broadband services
- Wireless managed services

Business Outcomes

- A reduction in chronic connectivity issues
- A reduction in wireless cost overruns
- Continuous optimization of 4G wireless plans
- A dramatic increase in available bandwidth
- A significantly improved user experience
